Steeped in 7,000 years of archaeological and historical treasure, set against a backdrop of honey coloured limestone cliffs and cerulean Mediterranean Sea, the islands of Malta provide some of the most irresistible locations for meetings and events. Few destinations can rival the rich contrast Malta offers between ancient monuments and modern hotels, medieval architecture and cutting-edge development, long-forgotten traditions and the latest trends.

An aerial night view of a garden event. A central gazebo is surrounded by a large area of string lights. In the foreground, there are two circular fountains with water spraying upwards. The background features a large, ornate building with a central archway, surrounded by trees and palm trees. The scene is illuminated by warm lights from the gazebo and fountains, and cooler purple lights from the background trees.

○ Evening - La Valette Hall

One of Malta's most imposing buildings, Sacra Infermeria, is home to this evening's dinner.
